12/10/71

Garner, Jesse

The night of 11/19 I drove to 4907 Magazine to attempt to interview the Garner's about something to which the MC had been entirely indifferent.

There was a light not in the front room, visible from the side of the house.

Nobody answered persistent knocking.

The next day I checked the N.O. phone book just issued, dated 11/71. No Jesse Garner is listed.

I do not know if this means they have left, if they have an unlisted phone, or if they have no phone. I was unable to spend more time on it.
